

Quality Talk Starters...

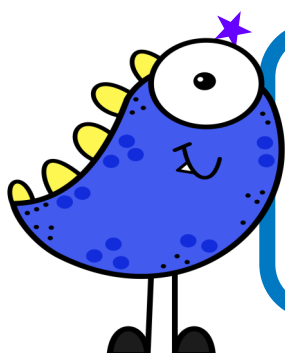

Helping each other out

What do you already know?
What did we try last time?

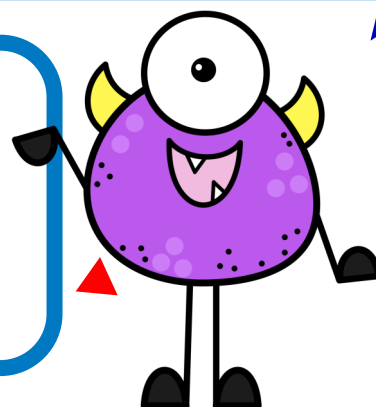

Encouraging each other to find out more

Shall we talk about what we already know?
What else do we know?
Remember when... How did you find that out?

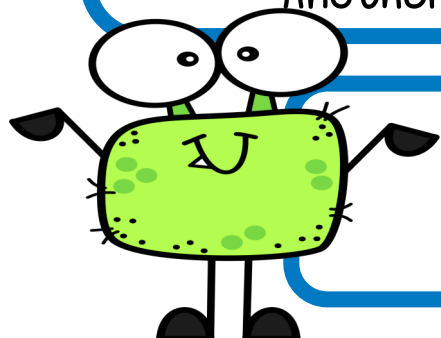

Challenging respectfully

Can you explain that?
Could you find another way?
I see it differently, because...
Another idea is that...

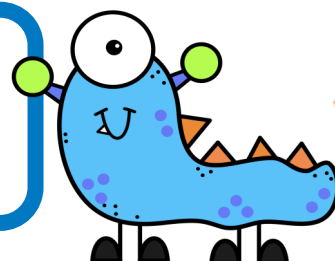

Proving my ideas

I have noticed that...
Let me explain...

Being curious

If we... Could we try...
Why? How?

Changing someone's mind (or mine)

Let's think again.
Your reason sounds right because
That's a good way to look at it.
